

**Amendments to the Specification:**

Please amend the Specification as follows:

[0024] An axial displacement, indicated by an arrow 40 in Fig. 1, is as a result made possible in a simple way. The adjustment nut 34 may be actuated by a mechanical and/or hydraulic actuator 42. The actuator 42 may be one of a variety of drive devices which will be obvious to those skilled in the art, and therefore is not illustrated in detail in the figures.
